Notice of Preliminary IRB Approval for a Project Lacking Immediate Plans for Involvement of Human Subjects, their Data, and/their Specimens

The IRB has reviewed and issued preliminary approval for the scope of activities described in the above-referenced study in accordance with 45 CFR 46.118. The study will involve research with human subjects for which the protocol is not yet fully developed. By the expiration date identified above, you must submit an amendment or new IRB application for full IRB approval of this project. No work with human subjects, including recruitment, may be conducted under this determination.
